-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Specification

1. Applicant is reminded of the proper language and format for an abstract of the disclosure:
 - The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited.
 - The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.
 - The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.
2. The specification is objected to for lacking proper headings in accordance with current U.S. practice. Applicant is respectfully requested to provide:
 - A priority statement claiming the priority date under rule 371 to PCT/EP03/02771, and
 - Proper headings in accordance with current U.S. practice.
3. The disclosure is objected to because of the following informalities:

“trough” on page 1, line 15, should be changed to: --through--;

Art Unit: 3721

“rubber strip 38” on page 8, line 8, should be changed to: --rubber strip 29--.

Appropriate correction is required.

Information Disclosure Statement

4. The references cited in the Search Report PCT/EP03/02771 have been considered, but will not be listed on any patent resulting from this application because they were not provided on a separate list in compliance with 37 CFR 1.98(a)(1). In order to have the references printed on such resulting patent, a separate listing, preferably on a PTO/SB/08A and 08B form, must be filed within the set period for reply to this Office action.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors. Applicant is respectfully requested to re-write or amend the claims to conform with current U.S. practice, and to:

- positively recite the claimed limitations which applicant regards as his invention,
- provide proper antecedent basis for claim limitations in claims 1-16, and

maintain consistency of terminologies through out the claims.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 1-4, as best understood, are rejected under 35 U.S.C. 102(b) as being anticipated by EP'157 (EP 0340157).

EP'157 discloses a folding device including a guide comprising cooperating rollers (24-27) that are adjustable to fold wrapping film substantially omega cross section (Figs. 2 & 3).

Allowable Subject Matter

9. Claims 5-16 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims. The prior art of record fails to disclose and/or teach a film folding and supplying apparatus that includes a pleating means comprising an elongate, flat and fixed guide having longitudinal edges carrying projecting rows of flat, idle and rounded edges wheels, and lateral guides carrying projecting rows of flat, idle and rounded edges wheels for cooperating with the projecting rows of flat, idle and rounded edges wheels of the fixed guide to fold the wrapping film.

Conclusion

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure has been cited on form PTO-892 along with the applied references.
